# NAVIGATION

The navigation panel is located on the left hand side of the screen. You can access all of the major functions by selecting one of the following: Dashboard, Reports, Settings, Organization and Logout.

# DASHBOARD

The dashboard screen represents the relevant data regarding all of the available Cythero products. Here you can see information regarding the usage of the products, ROI calculations, usage timeline and other useful information. You can get detailed information by clicking on any user.

# REPORTS

The reports are tailored for each application and can show information such as user progress report and session overviews.

**SprayVerse Reports**

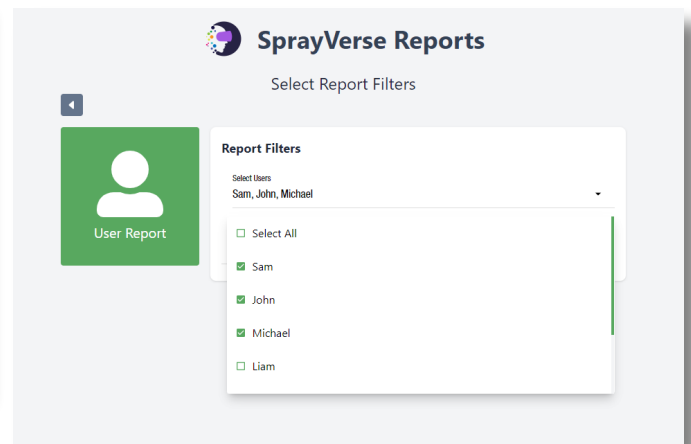

Select Report Type

- Trainee Performance** (Icon: Person)
- Part Report** (Icon: Document)
- Training Sessions** (Icon: Bar chart)

# FILTERS

The reports can be filtered by user, date range and part. You can generate all reports for a single user or multiple users at the same time.

# USER REPORT

The user report is a breakdown of the user's progress for the selected period. In this report you can see the grades the user has accumulated, the coverage breakdown for their latest sessions, the times they had done a certain activity as well as the total time they spent in active sessions.

## John's report (1 Oct 2022 to 9 Jan 2023)
